About National Cyber Security Awareness Month

Now in its 12th year, NCSAM is designed to engage and educate public and private sector partners through events and initiatives with the goal of raising awareness about cyber security in order to increase the resiliency of the nation in the event of a cyber incident. NCSAM has been formally recognized by Congress, federal, state and local governments and leaders from industry and academia. This united effort is necessary to maintain a cyberspace that is safer, more resilient and remains a source of tremendous opportunity and growth for years to come. For more information, visit <http://www.staysafeonline.org/ncsam> or www.dhs.gov/national-cyber-security-awareness-month.
